Select #: WP2545048

Lead Representative LESLIE AMOS SANDERS

Mr. Don Campbell, Maintenance Superintendent (USAF) for all assigned SR-71, U-2/TR-1, KC-135Q and T-38, had significant involvement in the SR-71 program from it's inception to termination. Mr Campbell has extensive knowledge of the SR-71 and upon his retirement from the USAF accepted a position with Lockheed Martin Skunk Works as a Maintainability Superintendent and later accepted a position as a Logistics Support Administrator. Mr. Campbell will also speak about the exceptional safety record of the fastest airplane ever built.

Directions: Golden West Regional Fly-In, Yuba County Airport, Olivehurst, CA
<http://www.goldenwestflyin.org/>. Please note the Yuba County Airport will have an operating Air Traffic Control Tower, 0600 hrs - 1800 hrs, June 8,9,10

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
